Challenge #6:
Livy's LONG Route

Problem:
Livy has not been to Australia in 5 years because it is so far away from Massachusetts, where she lives.

Challenge:
Recreate Livy's route from Massachusetts to Australia. Make the Ozobot travel along her route:

1. Drive from Massachusetts to New York City for four hours.
(Massachusetts to New York City parking garage/lot)

2. Park the car and wait for a bus to the airport.
(New York City Parking Garage/Lot to New York City Airport)

3. Take a plane for seven hours to California.
(New York City Airport to California Airport)

4. Get off that plane. Take another plan for nineeen hours to Melbourne, Australia.
(California Airport to Australia Airport)

5. Get off that plane. Wait in line for the rental car line. Drive the car for 2 hours in Australia. Get to Gran's house.
(Australia Airport to Gran's house)

Criteria:
1. You must create a map with all 6 landmarks on it – LABELED!
2. Your Ozobot must travel along the route successfully from beginning to end.

Constraint:
You may use only the materials at this center.
